PsycINFO, a family of interrelated information services, provides access to the literature in psychology and related behavioral and social sciences in a variety of ways. PsycINFO consists of

Psychological Abstracts (PA) journal (ISSN 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the serial and book literature in psychology and related disciplines.

Issue. The monthly **PA** issues contain entries listed under 22 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the records are arranged alphabetically by first author, and are numbered consecutively each year.

Indexes. An author, brief subject, and book title index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

PsycSCAN®: Clinical Psychology. A quarterly print publication and electronic subset of the PsycINFO database containing abstracts from subscriber-selected journals in clinical psychology.

Neuropsychology Abstracts. Formerly known as *PsycSCAN: Neuropsychology*. A quarterly print publication and electronic subset of the PsycINFO database covering clinical and human cognitive experimental areas of neuropsychology.

Psychoanalytic Abstracts. Formerly known as *PsycSCAN: Psychoanalysis*. A quarterly print publication and electronic subset of the PsycINFO database containing abstracts of psychoanalytic content.

The Thesaurus of Psychological Index Terms© 9th Edition (2001). A compilation of the controlled vocabulary used when creating records for PsycINFO databases.

PsycSCAN®: Applied Psychology. An electronic-only subset of the PsycINFO database that contains abstracts from subscriber-selected journals related to applied psychology.

PsycSCAN®: Behavior Analysis & Therapy. An electronic-only subset of the PsycINFO database that contains abstracts of content covering behavior analysis and therapy.

PsycSCAN®: Developmental Psychology. An electronic-only subset of the PsycINFO database that contains abstracts from subscriber-selected journals in developmental psychology.

PsycSCAN®: LD/MR. An electronic-only subset of the PsycINFO database containing abstracts related to learning and communication disorders and mental retardation covering a wide range of topics, including theories, research, assessment, treatment, rehabilitation, and educational issues.

PsycSCAN: Psychopharmacology®. An electronic-only subset of the PsycINFO database with targeted information about clinical and experimental psychopharmacology.

PsycINFO® Database. An electronic bibliographic database for professionals in behavioral sciences and mental health. It includes abstracts and citations (not full text) for journals, books, book chapters, and dissertations. Coverage extends from 1842 to present. The database includes material relevant to psychologists and professionals in related fields such as psychiatry, management, business, education, social science, neuroscience, law, medicine, and social work.

PsycEXTRA, a companion database to the scholarly PsycINFO, links clinicians, librarians, consumers, policy-makers, and researchers to a variety of credible information sources covering psychology, behavioral science, and health. Documents include newsletters, magazines, newspapers, technical and annual reports, government reports, consumer brochures, and more. PsycEXTRA is different from PsycINFO in its coverage, and also in its format, because it includes abstracts and citations plus full text for a portion of the records.

For more information on the above products and costs, write to psycinfo@apa.org or PsycINFO, American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242; or visit the American Psychological Association web site at **www.apa.org**.
Psychological Abstracts is printed on acid-free paper. Printed in the U.S.A.

2005 COVERAGE LIST

The PsycINFO Coverage List includes journals and other serial publications that are scanned regularly, abstracted selectively, and included in *Psychological Abstracts (PA)* and the PsycINFO database. In cases where a journal publishes articles only in a language other than English, the abstracts for these journal articles will be included in the PsycINFO database, but will not appear in *Psychological Abstracts*. A dagger (†) after the title indicates this occurrence. For journals that publish articles both in English and in other languages, only the abstracts of the English language articles will be included in *PA* while both English and non-English language articles will appear in the PsycINFO database.

The presence of a serial title in the list does not imply that all articles contained in issues of that serial will subsequently appear in PsycINFO's database or print products. Journals likely to publish articles relevant to behavior are included for regular systematic scan of their content. Articles are selected specifically and individually for their relevance to psychology.

Whenever possible, publisher name, address, frequency of publication, and ISSN are included for each publication to facilitate access to original documents by users. The date in parenthesis indicates the publication year of the first issue scanned by PsycINFO of a particular serial. Asterisks within parenthesis indicate that coverage began with the first issue of publication. An N/A after an ISSN indicates that the number was not available. Bold type identifies those journals that published articles appearing in this volume year.

This Annual Author Index contains over 100,000 references to the authors and editors of approximately 40,000 abstract records published in the 12 monthly issues of *Psychological Abstracts* from January 2005 through December 2005. A companion work, the Annual Subject Index, references these records by topic.

In this volume, all the authors and editors whose work was abstracted or cited in *Psychological Abstracts* for the periods indicated are listed alphabetically by surname. However, the Author Index is intended to be a name index only and not a person index. "Adams, P." will be listed separately from Adams, Paul," even though the names may refer to the same person. Two listings for "Adams, P." may also refer to two different authors. Entries consist of author name(s), and the *Psychological Abstracts* abstract number under which the entry appeared.

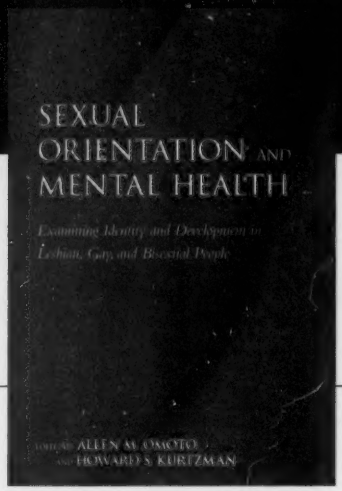
SEXUAL ORIENTATION AND MENTAL HEALTH



Examining Identity and Development in Lesbian, Gay, and Bisexual People

EDITED BY ALLEN M. OMOTO AND HOWARD S. KURTZMAN

PART OF THE *CONTEMPORARY PERSPECTIVES ON LESBIAN, GAY, AND BISEXUAL PSYCHOLOGY* (DIVISION 44) SERIES.

In *Sexual Orientation and Mental Health*, expert contributors explore the impressive body of rigorous empirical research on mental health in lesbian, gay, and bisexual people that has emerged over the past decade. This volume presents some of the most important work in this field from both established and emerging investigators. The contributors examine the prevalence and potential determinants of depression, anxiety, and substance abuse in adolescents and adults, giving consideration to the roles of prejudice and harassment as well as of positive family and social supports. The chapters address a wide range of topics, including sexual behavior and identity, the influence of religion on mental health, work satisfaction, the well-being of children of same-sex couples, and the links between psychosocial processes and physical health. Several chapters also focus on the experiences of members of ethnic minority groups. Contributors discuss methodological challenges in conducting research with lesbian, gay, and bisexual people and suggest topics for future research. In addition to contributing to scientific knowledge in numerous areas, findings reported in this volume can inform the development of prevention and treatment interventions, service delivery systems, and health policies that are sensitive to the needs of lesbian, gay, and bisexual people. 2006. 336 pages. Hardcover.

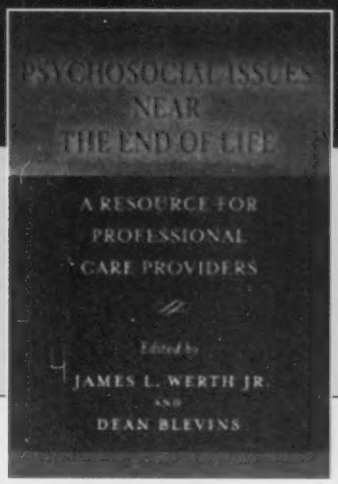
PSYCHOSOCIAL ISSUES NEAR THE END OF LIFE



A RESOURCE FOR PROFESSIONAL CARE PROVIDERS

EDITED BY JAMES L. WERTH, JR. AND DEAN BLEVINS

Although numerous books have been written on the physical and practical aspects of providing services to people who are dying, relatively little has been written on the psychological, spiritual, and interpersonal issues that arise. Until now, psychologists and mental health professionals who work with the dying and their loved ones have had no resource to guide them toward empirically supported practices that can improve quality of life. This book fills that gap.

Improving quality of care requires an interdisciplinary approach, and the contributors to this volume bring multiple perspectives to bear on the topic. Chapter authors from both research and clinical perspectives cover how the end-of-life environment has changed over time; the kinds of decisions that need to be made; the role of psychologists in end-of-life care; cross-cultural considerations; assessment; legal issues; practical caregiving; misinformation about depression and hopelessness; and the respective roles of caregivers and hospices. The final chapter by the editors lays out a blueprint for future research, care, education, and policy.

CONTENTS:
Foreword: Transforming Dying in America
■ Introduction ■ Chapter 1: Understanding End of Life: An Overview ■ Chapter 2: The Effects of Culture in End-of-Life Situations ■ Chapter 3: Ethical Considerations in Providing Psychological Services in End-of-Life Care ■ Chapter 4: Self-Determination, Substituted Judgment, and the Psychology of Advance Medical Decision Making ■ Chapter 5: End-of-Life Assessment Within a Holistic Bio-Psycho-Social-Spiritual Framework ■ Chapter 6: Mental Health Issues Near the End of Life ■ Chapter 7: Depression and Hopelessness Near the End of Life–Assessment and Treatment ■ Chapter 8: Responding to the Needs of Caregivers Near the End of Life–Enhancing Benefits and Minimizing Burdens ■ Chapter 9: Involvement of Psychologists in Psychosocial Aspects of Hospice and End-of-Life Care ■ Chapter 10: Recommendations for Improving Psychosocial Care Near the End of Life

This book provides a model for the important role that psychologists can play in ensuring that end-of-life care balances physical care with psychosocial and spiritual care. 2006. 264 pages. Hardcover.

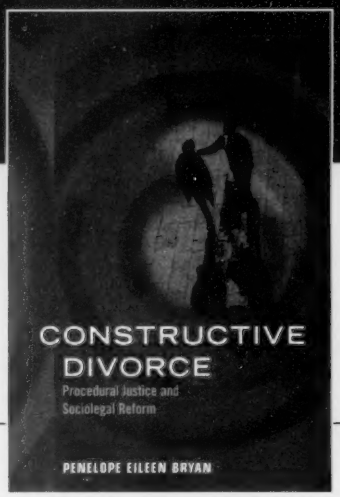
CONSTRUCTIVE DIVORCE



Procedural Justice and Sociolegal Reform

PENELOPE EILEEN BRYAN

SERIES – LAW AND PUBLIC POLICY: PSYCHOLOGY AND THE SOCIAL SCIENCES
SERIES EDITOR: BRUCE D. SALES

In *Constructive Divorce: Procedural Justice and Sociolegal Reform*, author Penelope Eileen Bryan offers a compelling argument that the procedures used to settle divorce disputes yield unjust decisions and poor outcomes for millions of adults and children each year.

This well-researched, carefully constructed book discusses the benefits of improving procedural justice in divorce cases (greater compliance with divorce decrees and settlements, enhanced legitimacy of the justice system, improvements to the common good). It then scrutinizes how today's family law system measures up in terms of criteria based in social sciences, such as efficiency, bias, accuracy, consistency, respect, and concern for disputants. These discussions lay the groundwork for the author's proposals for procedural reforms and possible changes in the law itself, designed to better protect both legal rights and the mental health of individuals involved in the difficult process of divorce. Woven throughout are insights drawn from the social sciences literature and reflections on how psychology might best serve clients struggling with divorce. 2006. 344 pages. Hardcover.

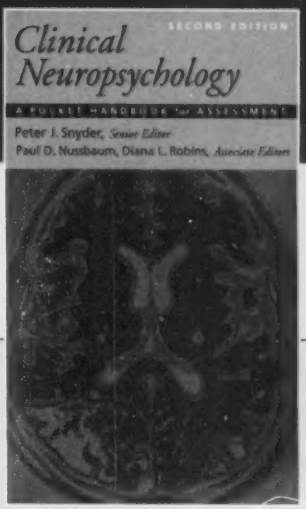
Clinical Neuropsychology



A POCKET HANDBOOK FOR ASSESSMENT, SECOND EDITION

SENIOR EDITOR: PETER J. SNYDER
EDITED BY PAUL D. NUSSBAUM AND DIANA L. ROBINS

This second edition of *Clinical Neuropsychology* is a practical reference source for neuropsychologists, interns, and trainees working in hospitals. With over 100 quick-reference tables, lists, diagrams, photos, and decision trees, this book offers guidance through the complicated decision-making processes of assessment, diagnosis, and treatment. Because neuropsychologists now consult in many different health care settings—including emergency rooms, oncology departments, infectious disease programs, cardiology, neurology, neurosurgery, and psychiatry—having a guide that covers such a broad array of illnesses is absolutely critical. This new edition builds on the success of the best-selling first edition by providing cutting-edge information on how to use and interpret neuroimaging technologies and how to integrate pharmacological approaches into treatment.

A new chapter has been included to introduce the busy clinician to the range of established and novel neuroimaging technologies that have seen tremendous technological improvements over the past seven years. In addition, chapters were revised with the intent of adding more specific information related to the neurochemical bases for various disorders, and when appropriate, more information on currently accepted pharmacologic treatment approaches. The reader will also find other new additions, including chapters on neuro-oncology, schizophrenia, late-life depression, and adult ADHD. 2006. 843 pages. Paperback.

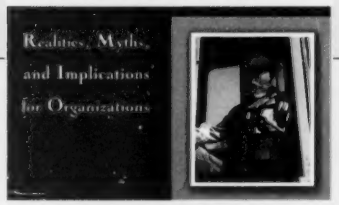
THE AGING WORKFORCE

Realities, Myths, and Implications for Organizations

JERRY W. HEDGE, WALTER C. BORMAN, AND STEVEN E. LAMMLEIN



As the baby boom generation moves gradually toward retirement age, the demographics of the workforce are changing. Yet most organizations are ill-prepared to meet the challenges associated with these changes. Fortunately, an increasing amount of research suggests ways in which organizations can implement effective management practices for older workers. This forward-thinking book examines common preconceptions about "the graying workforce," exploding myths and separating fact from fiction.

Because of their professional expertise, workers over the age of 60 will continue to be important contributors to organizations. But what are their special needs, strengths, and weaknesses? How does age affect cognitive performance, job attitudes, and motivation? How do age stereotyping and employment discrimination affect older adults? What kinds of employment patterns will typify older workers? How can they best be attracted and retained? The authors of this book provide "state of the science" answers to these questions. Psychologists, policy makers, and human resource personnel will find that the discussion in this timely book provides the impetus for creative solutions to future organizational challenges. 2006. 248 pages. Hardcover.

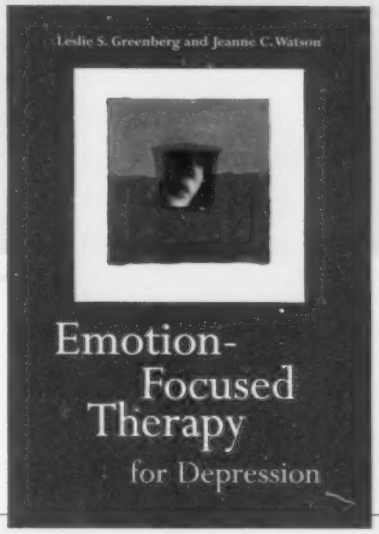
EMOTION-FOCUSED THERAPY FOR DEPRESSION



LESLIE S. GREENBERG AND JEANNE C. WATSON

In *Emotion-Focused Therapy for Depression*, Leslie S. Greenberg and Jeanne C. Watson, well-regarded scholars and leading figures in the field, provide a manual for the emotion-focused treatment (EFT) of depression. Their approach is supported by studies in which EFT for depression was compared with Cognitive-Behavioral Therapy, Client-Centered Therapy, and then both. The authors discuss the nature of depression and its treatment, examine the role of emotion, present a schematic model of depression and an overview of the course of treatment, and suggest who might benefit.

Written with a practical focus rather than a more academic theoretical style, this book covers theory, case formulation, treatment, and research in a way that makes this complex form of therapy accessible to all readers. 2006. 344 pages. Hardcover.
